NCAA Championship Notes

Women's fencing was added as an NCAA team championship sport in 1982 (individual competition in foil only). Women's epee was added in 1995 and the women's sabre competition was added in 2000.

Since 1990, there has been a single NCAA fencing championship, with the team championship based on combined men's and women's individual events.

In 1990, team scoring was based on standings in weapon team events. In 1991, the scoring system was expanded to allow fencers not qualifying as part of a team to contribute points to team standings through their individual performances. As a result, point values for weapon team standings increased. In 1995, weapon team events were eliminated and team scoring was based on performance in the individual events.
